About This Content

How cool is the retro sound? More cool now than ever! This pack is so retro you might find yourself reaching for a big gulp, or some Big League Chew, or an actual JOYSTICK...

The days of nostalgia are back in this 8-bit album carefully constructed by videogame music composer FrancisForteVGM (Francisco Barrera Gil).

These tunes were born from an epiphany, with the intention of expressing the meaning of an honest life as a central concept of the album. Put yourself in the shoes of the protagonist of your story, and ride the flow of a new, adventurous story.

"No matter where you are, no matter when you act: Have a truthful life, and die with no regrets."
